Course Syllabus

Live class Zoom ID: 983 3733 7593

EU8 Github Organization [Link](#)

Unit One

- 1.1 Introduction to programming concepts
 - o Basic computer knowledge
 - o ASCII table

▼ Installation of JAVA JDK and IntelliJ IDEA Tool

IMPORTANT NOTE 1 : At the video it is showing installing JAVA JDK 8, but we will use JDK 11, SO make sure to install JAVA JDK 11.

IMPORTANT NOTE 2 : Where ever you see B-25 or any other group names PLEASE use EU8 for naming. **Your batch is EU8.**

IMPORTANT NOTE 3 : At the course video **"DAY 01 - Introduction to Java Programming"** the teacher shows again how to install, set-up, and create a **JAVA PROJECT** as well. So you can install with the teacher **"Muhtar"** as well.

▼ Create a folder on your Desktop named "Java Programming EU8"

1. Create a sub folder named "DayXX" under the directory "Java Programming EU8"
 - a. Go to Canvas -> EU8-Java Programming -> Modules -> DayXX - TOPIC XXXXXXXXXXXX
 - a.1 download the pdf file
 - a.2 drag the pdf file from download folder and dropt it under the folder "DayXX"

▼ TRY TO BE ORGINIZED FROM THE FIRST DAY

- Create Folders and Sub-Folders: When you look for a piece of information FIND it without problem
- Keep your files, documents, project in a safe place
- Subjects that will be covered throughout this program
 - JAVA
 - UI (Web Page) Test Automation : Selenium, Junit, Cucumber Framework, Gherkin
 - Back End Testing
 - DataBase: SQL, JDBC
 - API: RestAssured
 - Soft Skill Classes and Projects
 - Interview Studies
 - Flipgrid Videos
 - Additional Interview Preparation Documents and Videos

▼ Questions “WHO TO ASK WHAT”

- Discord problem, Okta Account Problem, Authorization problems: SUPPORT TEAM
 - Open a ticket and they will come back to you.
- Course related technical problems:
 - First ask at Discord Q&A channel to collaborate with your friends
 - I will also respond to some of the questions at Q&A channel
 - Please do not send Direct Message as much as possible. Just TAG my name at the Q&A channel, ask in a public way. SO Everbody can benefit from this questions and answers.

▼ What is JAVA and why are we learning it?

▼ We need to install JAVA JDK 11 and IntelliJ IDEA to start coding this week.
