Nested Loop

Nested Loop

- A loop can be nested inside another loop

- Used for repeating a loop

- Each time the outer loop is repeated, the inner loop(s) is/are reentered and started a new.

```
//1st for loop
for (initialise_1; condition_1; update_1) {
  //2nd for loop
  for (initialise_2; condition_2; update_2) {
    //code...
  }
}
```
